

New Page: Order Status

The user can reach the Order Status page by “completing” the checkout process after adding an item to the cart. After clicking “Place Your Order” on the Checkout page, the user can click “Check Order Status” on the Confirmation page.

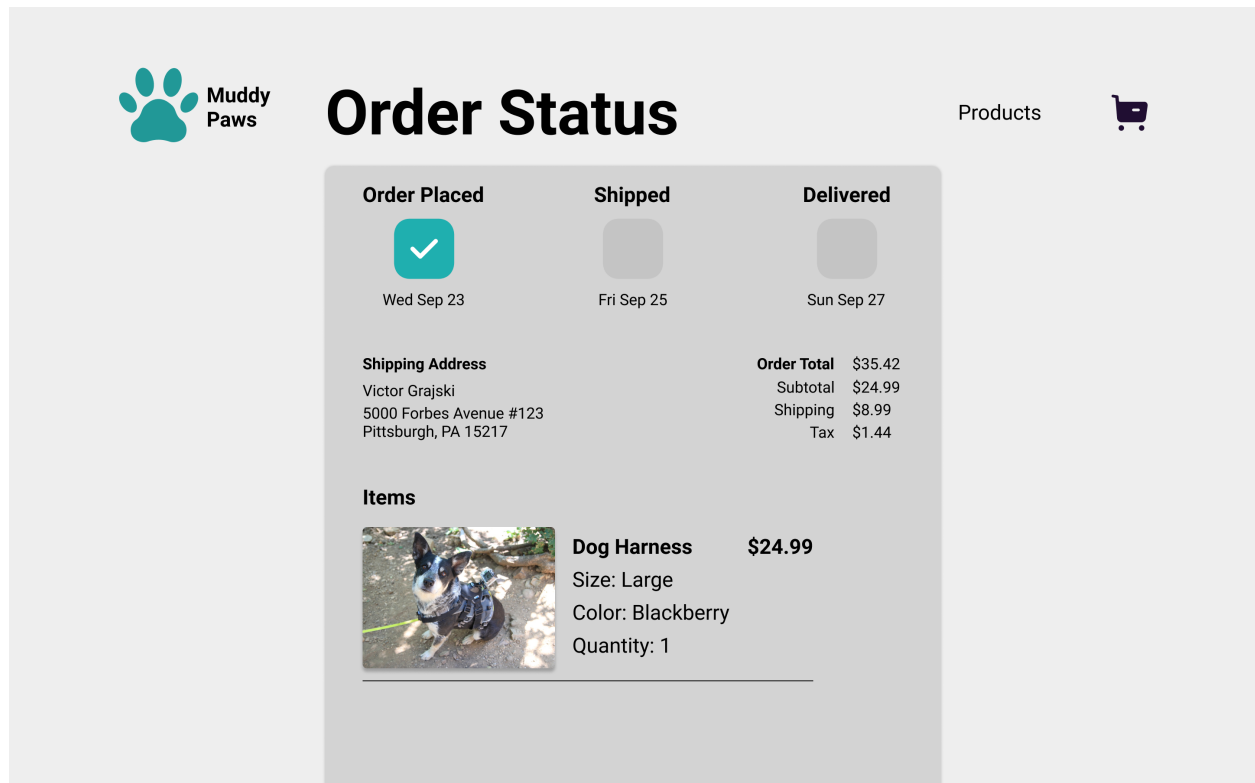

Both the lo-fi sketch and the hi-fi mockup are documented below, and they are also stored in the “mockups” folder at the top level of my GitHub repo.

Order Status Page Lo-Fi Sketch

The sketch is a hand-drawn lo-fi design for an 'Order Status' page. At the top, the header 'Muddy Paws' is followed by 'Order Status' in a large, rounded font, with 'Products' and 'Cart' as smaller links to the right. Below the header is a large rectangular container. Inside, the top section shows three status options: 'Order Placed' with a green checkmark icon and 'Oct 25' below it; 'Shipped' with a circle icon and 'Est: Oct 27' below it; and 'Delivered' with a circle icon and 'Est: Oct 29' below it. The middle section is split: the left side is labeled 'Shipping Address' with three wavy lines below it; the right side is labeled 'Order Total: \$xx' and lists 'Subtotal: \$xx', 'Shipping: \$xx', and 'Tax: \$xx'. The bottom section is labeled 'Items' and contains a table with one item: a dog harness (represented by a box with an 'X'), size 'Large', color 'Blackberry', priced at '\$24.99' with a quantity of 'Qty: 1'. A horizontal line is drawn below the item table.

Muddy Paws Order Status		Products	Cart
Order Placed ✓ Oct 25	Shipped ○ Est: Oct 27	Delivered ○ Est: Oct 29	
Shipping Address ~~~~~		Order Total: \$xx Subtotal: \$xx Shipping: \$xx Tax: \$xx	
Items			
<div></div>		Dog Harness Size: Large Color: Blackberry \$24.99 Qty: 1	

Order Status Page Hi-Fi Mockup
